

Technology, climate change and increasing nationalist trends are posing serious challenges to the way we live. Under such conditions, creating wasteless societies, hyper efficient businesses that use technology to augment human creativity and low-friction economies should be a priority. In this session we will explore the essential skill sets and potential platforms to solve current issues by collaborative creativity.

## Discussion

16 October 2019

 04:00 PM - 05:00 PM
